PREVENTING EVERY PARENT'S WORST NIGHTMARE

Practical, scenario-based workshops for 18–25 year olds – the drivers most at risk on our roads...

- Navigating the risks of rural road driving
- Drive confidently in changing weather
- Learn your car's essential tools
- Breakdown and evacuation essentials

26th October • 09.30-12:15
Nell Gwynne Theatre
The Courtyard, Hereford

28, 29 or 30th October • 09.30-12:15
NMITE Skylon Campus
Hereford HR2 6SR

Hosted by COURTYARD HEREFORD

Training by MEP Minerva Elite Performance

Brought to you by ely MEMORIAL FUND

Hosted by NMITE NEW MODEL INSTITUTE FOR TECHNOLOGY & ENGINEERING

These workshops go beyond the traditional classroom setting, using realistic, scenario-based learning to create a truly engaging and memorable experience, led by trainers from military and emergency service backgrounds with real-life insight.

Workshop 1

Navigating the Risks of Rural Road Driving

Overview:
Join us in an engaging, hands-on workshop to understand the unique challenges posed by rural roads and how to tackle them effectively.

Learning Outcomes:
- Adapt driving styles and speed on country roads
- Spot hidden hazards like livestock, mud, and blind bends
- Respond safely to unpredictable conditions

Aims and Objectives:
This session aims to equip young drivers with the awareness and skills needed to drive safely on rural roads, avoiding common pitfalls.

Workshop 2

Mastering Weather Changes

Overview:
Build confidence driving in all conditions through practical, real-world scenarios.
- Adjust driving techniques for snow, ice, fog, and floods
- Improve visibility, control, and reaction times
- Stay safe in low-light and night-time driving

Aims and Objectives:
This hands-on session aims to provide you with practical techniques for safe driving amidst weather unpredictability. Forget about endless slides – experience the dynamic learning that can truly make a difference.

Workshop 3

Get to Know Your Car's Tools

Overview:
Unlock the potential of your car's tools in this concise, insightful workshop. Discover how each tool functions and the role it plays in ensuring your safe journey.

Learning Outcomes:

- Identify essential safety tools in your vehicle
- Know when and how to use each one
- Be prepared for unexpected situations

Aims and Objectives:
The objective is to familiarise you with the essentials you should always have in your vehicle, ensuring preparedness for any situation. Expect an interactive session full of practical insights!

Workshop 4

Breakdown and Evacuation Essentials

Overview:
Gain essential knowledge in vehicle breakdown and evacuation safety, tailored specifically for young drivers. This 20-minute workshop will provide you with critical skills to manage breakdowns efficiently.

Learning Outcomes:

- Handle breakdowns calmly and safely
- Learn safe vehicle exit and evacuation techniques
- Minimise risk in high-pressure situations

Aims and Objectives:
This session focuses on boosting your confidence and competence in emergency situations, fostering an environment of quick-thinking and problem-solving.

DRIVING FOR CHANGE

If you're aged 18–25, or know someone who is, this programme could save a life

Driving for Change is the next evolution of ELY Memorial Fund's work, designed to reach young drivers when it matters most.

Through hands-on, real-world learning, we're helping reduce risk, build confidence and prevent tragedy on our roads.

Spaces are limited – Book your place – £20pp
